Title: 04.01 ⟹ GAME #. POST #
- Game
- Post #

Navigation: Small <h3> telling which post. "Game 04 post 1/10"

Context: Generally feelings & headspace. Where the post is coming from. Unique & full text based
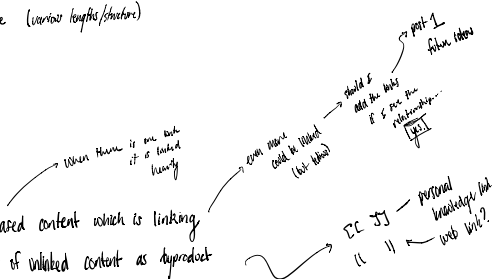

Content: Variety of content.
- Lists
- Text/Prose (various lengths/structure)
- Photos
- Links

Primarily a lot of text based content which is linking internally & externally. A lot of unlinked content as byproduct of Roam. Would be nice to see these insights/context when exploring others ideas.

When there is one and it is linked heavily

even more could be linked (lost ideas)

should I add the links & see the relationship... Yes!

Misc:

Block Relationships + Hashtags

@ Links

Content Notes

Here's what I got. Anything I missed?

Post 3. Why doing this for self?

Communication what we're about

perspectives as byproduct of relationships
